

Problem Tracking

CSSE 376 Software Quality Assurance
Rose-Hulman Institute of Technology

March 14, 2007

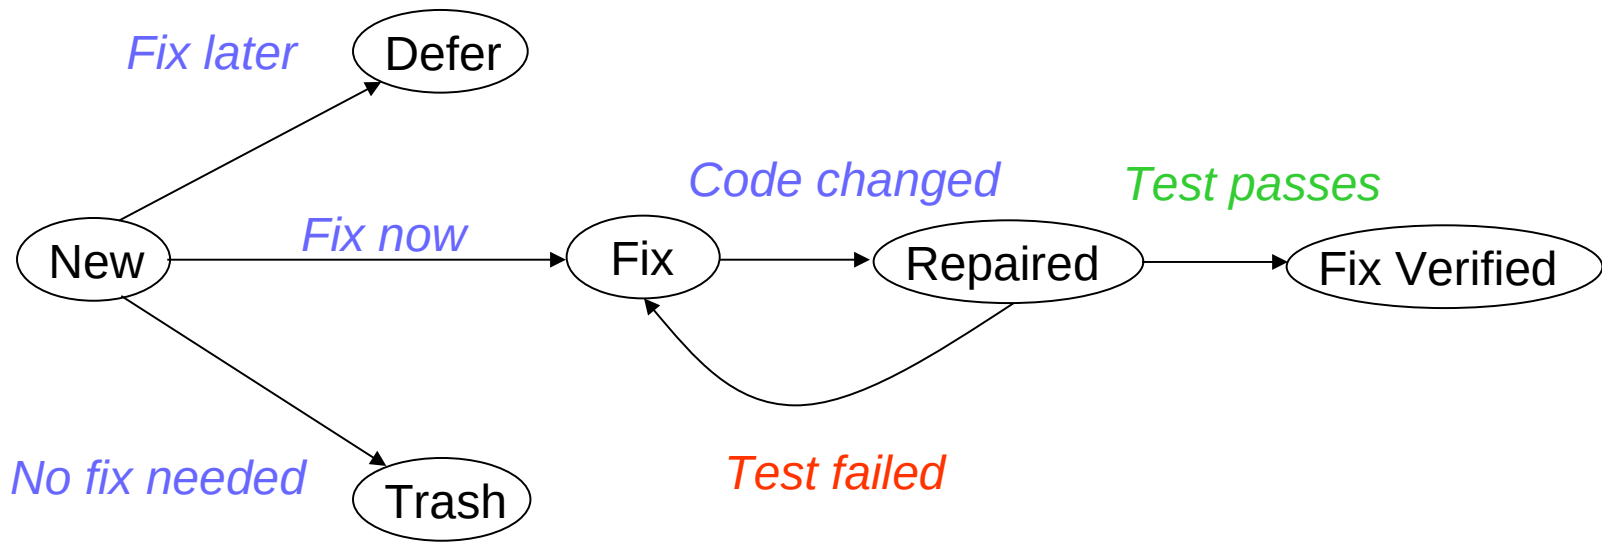

Outline

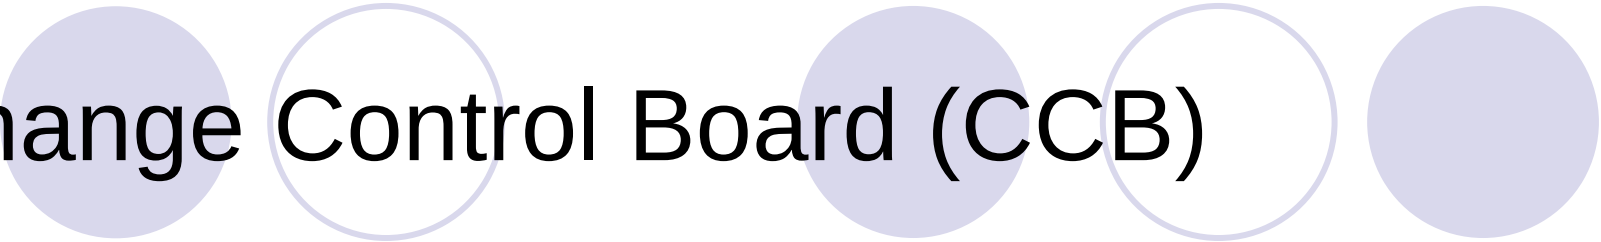

- States of bugs
- Problem tracking systems
- Role playing: testing and problem tracking

States of Bugs

State	Owner	Description
New	Tester	Problem reported
Fix	Developer	Developer assigned to fix
Defer	CCB	Fixing postponed
Trash	CCB	No fix needed
Repaired	Developer	Developer completed fix
Fix verified	Tester	Fix has been verified by tester

How Bugs Change States

Change Control Board (CCB)

- Reviews change requests (bug reports)
- Decides whether to:
 - fix now
 - defer until later
 - reject
- May bundle collections of changes together

Problem Tracking Systems

- Database of reported problems (bugs)
 - ID
 - Status (new, fix, defer, repaired, fix verified)
 - Severity
 - Creator (person reporting problem)
 - Date created
 - Date last updated
 - Description
 - ...
- Provide summary reports for project monitoring

View All Problems

Summary

'new' bugs should become 'assigned' when I assign them

Description

I'm looking at a "new" bug and want to assign it to another developer. I hit "update bug" and select the developer from the popup. After I save, the bug has the developer's name in the "assigned" field, but the bug status is still "new". My feeling is that it should automatically change to "assigned" in this case.
