SACSCOC Standard 6.2.a

For each of its educational programs, the institution justifies and documents the qualifications of its faculty members.

KSU must

- Employ competent faculty members qualified to accomplish the mission and goals of the University;
- Determine acceptable qualifications of its faculty; and,
- Justify and document the qualifications of all faculty (full-time and part-time) at all locations for all courses and delivery modes.

KSU must make its case!

KSU must document the qualifications of its faculty

- Undergraduate and graduate degrees, as appropriate;
- Related work experience;
- Professional licensure and certification;

Continue

- Honors and awards;
- Research and publications;
- Continuous documented excellence in teaching; and,
- Other documented competencies and achievements that contribute to effective teaching and student learning outcomes.

KSU must

Align course content with specific academic and/or professional experience.

Flexibility and Risk

- The higher the course level, the more challenging the justification for other types of faculty qualifications .
- The later an institution is in its reaffirmation of accreditation process, the more conservative it should be when justifying other types of faculty qualifications.
